General T&Cs

Weekly Wheel Drops Schedule & Participation Requirements

- The Drops & Wins Weekly Wheel Drops are available in selected slot games from 4th March 2026 at 18:01 GMT+0 (19:01 CET) until 3rd March 2027 at 17:59 GMT+0 (18:59 CET), from Wednesday to the following Wednesday (the “**Promotional Term**”). This is a network-wide promotion operated by Pragmatic Play, with prize pools shared across multiple participating operators.
- To take part in a Weekly Wheel Drop, you are required to join or opt-in every week in any of the participating games through the promotional welcome pop-up. Once opted in, you will qualify for the entire week.
- If you choose to opt out, you will be excluded only from that week’s Weekly Wheel Drop and may opt in again for subsequent Weekly Wheel Drops.
- By opting in for the Weekly Wheel Drops, you hereby agree to abide by these Terms and Conditions.

How to win in a Weekly Wheel Drop

- To qualify for a random prize, you must place a real-money spin of any bet stake (subject to game-specific minimum bet requirements) (a “**Qualifying Bet**”) on a participating game and collect all three (3) wheel pieces.
- Wheel pieces are solely used to qualify for a random prize and do not award any other reward(s) until the wheel is complete.
- If you collect only one (1) or two (2) wheel pieces without completing the wheel, you do not qualify for a random prize.
- Wheel pieces are randomly triggered on any Qualifying Bet, with only one (1) piece awarded at a time. This is a progression collection mechanic, whereby once the first wheel piece is collected, you become eligible to collect the remaining pieces until all three (3) are obtained.
- Once all three (3) wheel pieces are collected, the full-screen vertical wheel will be displayed. You can spin the wheel by tapping or swiping downward to receive your prize.

Example for illustrative purposes:

First piece: You place a bet of €0.20 and win the first wheel piece. No prize is awarded yet.

Second piece: You place a bet of €0.50 and trigger the second wheel piece. Still no prize; you remain eligible for the third piece.

Third piece: You place a bet of €0.20 and trigger the third wheel piece. The wheel is now complete.

Spin the wheel: You tap the screen to spin and are awarded one (1) random prize.

- You can track the wheel piece collection via the promotional in-game interface. The number of pieces is displayed visually on the top-left corner promotional bar, indicating how many pieces have been collected compared to the total required to complete the wheel.
- Wheel pieces collected but not completed by the end of a Weekly Wheel Drop period will not be carried over into the following week and will reset at the start of the next Weekly Wheel Drop.

What you can win in a Weekly Wheel Drop

- There is a total of ninety-six thousand and nine hundred (96,900) weekly prizes available during the Promotion. These prizes are awarded as predetermined multipliers of your

winning bet stake ([multiplier received multiplied by (x) bet stake], where the bet stake cannot exceed **R20** for prize payout).

- Multiplier prizes are applied to the Qualifying Bet up to **R20** that triggered the final wheel piece (“Qualifying Bet”).
- All prize types and quantities are displayed within the “Prizes” section of the promotional menu available in-game or in the table below:

Quantity	Prize
1	100,000X
3	10,000X
6	5,000X
10	1,000X

50	100X
300	50X
5,000	20X
22,500	10X
69,000	5X

- If you place a Super Spin, Double Chance Bet, or Triple Chance Bet (“**Ante Bet**”), your prize will be awarded at the same bet level or at the **R20** value if your bet stake exceeds the maximum amount. Ante Bet availability depends on your jurisdiction.
- You can track your progress in collecting wheel pieces, along with your wins and other players’ wins, in real time within the promotional interface of each participating game.
- You must complete all steps described above to receive a prize. You may win a maximum of two (2) prizes during each Weekly Wheel Drop.

General T&Cs

Daily Tournaments Schedule & Participation Requirements

- The Drops & Wins Daily Tournaments are available in selected slot games from 4th March 2026 at 18:01 GMT+0 (19:01 CET) until 3rd March 2027 at 17:59 GMT+0 (18:59 CET) (the “**Promotional Term**”). This is a network-wide promotion operated by Pragmatic Play, with prize pools shared across multiple participating operators.
- Each Daily Tournament runs from 18:01 GMT+0 (19:01 CET) until 17:59 GMT+0 (18:59 CET) the following day, and tournaments are grouped into weekly cycles running from Wednesday to Wednesday, with seven (7) Daily Tournaments each week.
- To participate, you must opt in once per week in any participating game through the promotional welcome pop-up. Once opted in, you are automatically entered into all Daily Tournaments for that week.
- No tournament points are awarded for gameplay prior to opting in, and points will not be credited retroactively.
- If you opt out, you will be excluded only from that week’s Daily Tournaments and may opt back in for subsequent weeks.
- By opting in for the Daily Tournaments, you agree to abide by these Terms and Conditions.

How to win in a Daily Tournament

- To qualify for a prize, you must place real-money spins on any participating game with a minimum bet stake of **R3** (each a “**Qualifying Bet**”) and collect at least one leaderboard point.
- If the minimum bet amount **R3** is not available in a game, the next higher available bet stake will count as a Qualifying Bet.
Example for illustrative purposes: If €0.15 is not available, a €0.20 spin will qualify.

- Your score is calculated as the total sum of all win multipliers achieved during a Daily Tournament. Points are awarded for every Qualifying Bet spin resulting in a multiplier greater than one (1) (total win / total stake >1).
- Win multipliers with decimals above 0.5 are rounded up to the nearest whole number; decimals below or equal to 0.5 are rounded down to zero (0).

Score calculation example for illustrative purposes only:

$$\text{Score} = \text{Win}(1) / \text{bet}(1) + \dots + \text{Win}(n) / \text{bet}(n)$$

$$\text{You bet €1 and win €50} \Rightarrow \text{Score} = €50 / €1 = 50$$

$$\text{You bet €5 and win €1,000} \Rightarrow \text{Score} = €1000 / €5 = 200$$

$$\text{You buy a Free Spins feature on a Bonus Buy bet amount of €20 and win €1,000} \Rightarrow$$

$$\text{Score} = €1,000 / €20 = 50$$

$$\text{Your final score will be } 200 + 50 = 250$$

- Tournament points reset to zero (0) at the start of every new Daily Tournament.
- Only the first five thousand (5,000) Qualifying Bets placed on any participating game will count toward the leaderboard ("**Qualifying Bets Limit**"). Once this limit is reached, following bets will not accumulate tournament points.
- The Qualifying Bets Limit resets at the start of each new Tournament.
- If you purchase an in-game bonus feature (Bonus/Free Spins) in any participating game ("**Bonus Buy**") or place a Super Spin, Double Chance Bet, or Triple Chance Bet, your win multiplier will be calculated based on the corresponding stake. Bonus Buy availability depends on your jurisdiction.
- Bonus Buy rounds count as a single game round for scoring purposes, regardless of the number of spins included in the feature.
- If a Bonus/Free Spins feature is triggered and you reach the maximum win multiplier before all Free Spins are completed, the remaining Free Spins will be forfeited. All wins up to that point will still count toward your score.
- Jackpot wins of any type do not count toward the leaderboard score.
- If the auto-play feature is in use, it will not be paused or stopped if you navigate away from the in-progress game to view the tournament promotional menu.
- In the event of a tie, players with the same number of tournament points will be ranked based on who achieved the points score first.
- The tournament updates in real time, allowing you to view the in-game leaderboard at any time while playing participating games.

What you can win in a Daily Tournament:

- Prizes will be awarded in cash, based on the final leaderboard positions at the end of each Daily Tournament. Winners are ranked in descending order, from the highest to the lowest position, according to their total score.
- There are five hundred (500) daily prizes on the leaderboard. All prizes are detailed and displayed within the "Prizes" section of the promotional menu available in-game or in the table below.
